

SPORTS VILLAGE

Every day made better[®]

YOUR DAILY ROUTINE

With Hot Spring® Spas, every day is a chance to start fresh, with heat that awakens, crystal clear water that invites, and innovation that you can feel – inspiring you to do more, experience more, and live more.

At the end of the day, we will help you get ready for what is next.

Unleash your best self™

VITALITY EVERY DAY

A Hot Spring® spa is a place for personal improvement, where you can immerse yourself in warm water and massage to revitalise, slow down to recover, and connect with others to feel closer. Remarkable things happen when you make spending time in your spa part of your daily routine.

BETTER WELLNESS

Hydrotherapy can improve circulation and helps keep you flexible, so you can be your best, every day. Step into your Hot Spring spa and emerge feeling better mentally, physically, and emotionally.

BETTER RECOVERY

The combination of heat and advanced massage provides a total-body experience. Warm water raises body temperature and can increase blood circulation, buoyancy can relieve stress on joints to encourage better movement, and carefully placed jets massage away the knots and aches in your muscles.

BETTER SELF

A spa provides you with a unique sense of personal well-being, a special place where the rigours of everyday life are on pause. It prepares you for the day ahead, and helps you unwind and sleep better at night. Here, you discover your best self.

BETTER CONNECTION

Spending time in a hot tub, without distractions, invites you to connect on a deeper level with the people who matter most in your life. You will find that you feel closer and great conversations happen naturally. The benefits flow well beyond just your time in the water, they fill your life with moments that fuel your best relationships.

HOT SPRING LEADS THE WAY

As the world's best-selling spa brand, Hot Spring earned its reputation for quality and innovation. But we do not stop there. Our focus is on providing The Absolute Best Hot Tub Ownership Experience™ through unparalleled massage, worry-free water care, energy-saving features and unmatched customer care. With a Hot Spring spa, you can relax today, tomorrow and long after your purchase.

LEGENDARY MASSAGE

As the industry leader with more than 40 years of hydrotherapy expertise, we perfected the warm water massage. Comfortable seats and specialised jet systems work together to create a distinctive experience that is precise and personalised. We invite you to experience it yourself.

PLACEMENT WITH PURPOSE

Each spa uses a variety of jets, each with its own purpose. They are thoughtfully arranged in each seat and work together to target specific muscle groups from your neck to your shoulders, back, calves, wrists and feet.

COMFORT THAT FITS YOU

Ergonomically designed shells are shaped to fit the body's natural contours, perfectly positioning you to relieve pressure and stress. With multi-level seating, there is a comfortable spot to satisfy every body's needs.

PERSONALISED CONTROL

Our Comfort Control™ system lets you dial in your ideal mix of air and water for a powerful massage or just a soft touch. Use the SmartJet™ system to customise water flow to different jet groups and seats throughout the spa.

BACK MASSAGE LIKE NO OTHER

There is nothing else like our patented Moto-Massage® DX moving jet. It delivers two powerful streams of water that sweep up and down the length of your back. It is a massage like no other.

Four Precision™ jets positioned above every Moto-Massage DX jet massage your neck and shoulders. These jets work in harmony for an unparalleled hydrotherapy experience.

Available on Highlife® Collection.

CRYSTAL CLEAR WATER

A great hot tub experience starts with water that looks, feels, and smells great. Our innovative technologies deliver clean water with minimal effort.

THE SIMPLER, CLEANER, BETTER WAY TO HOT TUB

The FreshWater® Salt System is a revolution in worry-free water care. This breakthrough technology is the simplest way to keep your hot tub water clean and fresh up to a full year.*

Available on Highlife® and Limelight® Collections.

freshwater™
Salt system

FEELS BETTER

Water is sanitised with a titanium cartridge that automatically generates chlorine from salt. You will enjoy soft, natural-feeling water without harsh odours, itchy skin, or irritated eyes.

SIMPLE CARE

The titanium cartridge lasts four months and requires no maintenance. When it is time to replace it, you can do it in seconds without tools and without draining the water.

WORRY FREE

Spend less time maintaining your spa and more time enjoying it. The control panel displays helpful messages that eliminate guesswork by showing you how everything is working and what adjustments might be needed.

CONSERVES WATER

When properly maintained, water life is extended, reducing the need to drain and refill your spa for up to 12 months – up to three times longer than other systems.*

*Many factors affect the life of spa water, such as bather load and water chemistry. When spa water is properly maintained considering these factors, a 3-pack of FreshWater Salt System cartridges will keep water clean and clear for up to a full year.

CRYSTAL CLEAR WATER

FROG IN-LINE SANITISING SYSTEM

The FROG® system is bromine-based and is formulated to work effectively in warm water. The system is integrated into the shell of the spa where it works continuously. Rather than measuring out chemicals, you simply replace the cartridge that lasts for weeks or months. The cartridge has a dial that you adjust depending on how often you use your spa. Bromine is easier on the skin and the FROG system requires fewer chemicals, making it easy to use your spa as often as you want. Combine the FROG cartridges with the optional FreshWater® III ozone system for the most effective water care on Hot Spot® spas.

This system is approved for use in the following countries: Austria, Denmark, France, Germany, Ireland, Italy, Norway, Portugal, Sweden, UK.

START WITH CLEAN WATER

These chemical-free accessories get you off to the right start when filling your spa. The Clean Screen™ pre-filter attaches to your garden hose to filter out organic contaminants, tannins and metals. Use Vanishing Act™ or On The Go® calcium removers to reduce hardness for softer-feeling water.

100% NO-BYPASS FILTRATION AND TRI-X

All the water in a Highlife® Collection spa is filtered all the time. In other spas, water bypasses the filters when the jets are on – which is when you need it most. With our exclusive system, all the water passes through the filters, even when the jets are running.

High-flow Tri-X™ filters are the key. Exclusive three-dimensional technology provides more effective filtration area compared to paper filters of the same size, to filter significantly more water. This also means they do not need to be cleaned as often, and when they do, they are dishwasher-safe for convenience. *Available on Highlife Collection.*

DUAL-ACTION FILTRATION

This unique two-filter design provides for more effective, constant filtration. One filter is dedicated to the circulation pump. The other is dedicated to the jet pumps to clean water when the jets are running. Working together, these two filters provide more total effective filtration area to keep water cleaner with less maintenance.

Available on Limelight® Collection.

ENERGY EFFICIENT

Your spa will be hot and ready when you want it. Our comprehensive Energy Smart™ system uses a combination of innovations to maintain spa water at your desired temperature while keeping energy costs low.

HIGH-DENSITY FOAM INSULATION

The same material found in commercial freezers is applied in an exclusive technique using multiple layers of varying densities. This helps eliminate gaps and voids in the foam, locking in heat and maximising energy efficiency.

Available on Highlife® Collection.

FIBERCOR® INSULATION

This exclusive insulation fills the cabinet completely with a density four times greater than the 8 kg/m³ foam used in most spas.

Available on Limelight® and Hot Spot® Collections.

HOT SPRING® SPA COVERS

We manufacture our own spa covers to ensure a tight seal that locks in heat. These dense foam covers feature child safety locks and are UL-listed to ASTM standards for safety. Our covers also feature an energy-saving hinge seal, which prevents heat from escaping at the centre of the spa cover.

TITANIUM NO-FAULT HEATER

A titanium housing and heater element maximises heat transfer to the water and delivers unmatched corrosion resistance. In fact, this patented No-Fault™ heater is warrantied regardless of water chemistry.

Available on Highlife and Limelight Collections.

SILENTFLO 5000™ CIRCULATION PUMP

A dedicated pump continuously circulates spa water, 24 hours a day, while using less energy than a 40-watt light bulb. This eliminates the need to rely on high-powered jet pumps to circulate water, reducing energy costs and wear.

Available on Highlife and Limelight Collections.

Optional on select Hot Spot Collection models.

INSULATED BASE PAN

Structural ribbing on the bottom of the spa increases energy efficiency by creating insulating air space and minimising contact with cold ground.

Available on Highlife Collection.

ENERGY COST

All models meet or exceed stringent California Energy Commission (CEC) and APSP 14 energy efficiency standards for portable spas. Actual energy costs depend on spa model, usage, temperature, and other factors. The table below estimates energy cost of a mid-sized Highlife Collection spa in heavy use.

MONTHLY COST ESTIMATES = RATE X KILOWATT HOUR

CITY	TEMP	kWh	RATE	COST
London	11°	202	€0.2203	€44
Madrid	15°	170	€0.2239	€38
Paris	12°	194	€0.1899	€37
Helsinki	6°	241	€0.1740	€42
Oslo	7°	233	€0.1355	€32
Stockholm	7°	233	€0.1826	€43

Temp: Approx. annual mean ambient temp. in degrees Celcius

kWh: Approx. average kilowatt hours per month to operate spa*

Rate: Approx. average rate charged per kilowatt hour in euros**

Cost: Approx. average monthly energy cost to operate spa*

* Based on a medium-sized Highlife Collection spa set at 39 °C used 6 times per week, 15 minutes with the jets on, 15 minutes with the jets off during each use. Testing conducted by an independent third party certified laboratory in a Controlled Environmental Chamber at multiple ambient temperatures using continuous Data Acquisition monitoring of watts, temperature and humidity, with all equipment rigorously calibrated to ensure data accuracy. Individual energy consumption will vary depending on water set temperature, actual consumer usage patterns, and actual environmental ambient conditions.

** Based on the rates as indicated by<https://ec.europa.eu/eurostat>, 2020. Rates are subject to change - check with your local electricity provider for the current rate in your area

CHOOSE YOUR SPA

With three distinct Collections and a wide range of models, sizes, and colours, there is a Hot Spring[®] spa that fits your space, your style, and you.

HIGHLIFE® COLLECTION

Our best. To unleash your best.

LIMELIGHT® COLLECTION

Advanced design and features. A cut above.

HOT SPOT® COLLECTION

Quality, performance, and value. Maximise your every day.

HIGHLIFE COLLECTION

OUR BEST. TO UNLEASH YOUR BEST.

For those who expect the most out of life, the Highlife® Collection is everything a hot tub can be. Exceptionally designed and engineered. Generously appointed. It is our very best.

FRESHWATER® SALT SYSTEM READY

A revolution in worry-free water care that helps you spend more time enjoying your spa and less time maintaining it.

MOTO-MASSAGE® DX JET

Patented moving jets provide two powerful water streams that sweep up and down your back for a massage like no other.

100% NO-BYPASS FILTRATION AND TRI-X

All the water is filtered all the time and dishwasher-safe Tri-X™ filters help keep water crystal clear.

WIRELESS REMOTE CONTROL

Operate spa functions from anywhere in the spa and up to 9 metres away with this unique, easy-to-read colour touchscreen.

SUPER ENERGY EFFICIENT AND ENERGY SMART

High-density, full-foam insulation is the same found in commercial freezers. With the comprehensive Energy Smart™ system of innovations, these are our most energy-efficient hot tubs.

POLYMER STRUCTURE AND BASE PAN

Built for durability and long life with a structure that will never rust or rot.

HIGHLIFE COLLECTION

VISUALLY STUNNING

The Highlife® Collection redefines how a hot tub looks with its unique floating effect. Elegantly sculpted shells integrate with a waterfall-like detail on each corner that cascades from top to bottom. It all works together harmoniously to create a design that is more like furniture than a hot tub.

Our designers carefully selected a distinctive colour palette with six cabinet finishes and a variety of shell colours so you can create a look that is just right for you.

Shown with Brushed Nickel cabinet and Alpine White shell.

HIGHLIFE® COLLECTION

LIGHT YOUR NIGHT

Create subtle accent lighting or a medley of colour with the multi-zone Luminescence™ LED lighting system. Easily customise it to suit your mood.

DELIGHT YOUR SENSES

Enhance your hot tub experience with the sights and sounds of the exclusive BellaFontana™ water feature. Three colourful backlit arcs of water converge to create this elegant fountain that you will enjoy from inside or outside your spa.

Included on most models.

HIGHLIFE® COLLECTION

DISTINCTIVE MASSAGE

Up to seven different jet types work together to provide the right amount of pressure and massage for different muscle groups. When you get out of your spa, you do not feel the same as when you got in.

FEELS JUST RIGHT

Simply adjust the jet face with the Comfort Control™ system to dial in a personalised experience with powerful massage or a soft touch. The SmartJet™ system customises water flow to different jet groups and seats throughout the spa.

COMFORTABLE SEATING

Contoured seats cradle your body in a natural position to deliver a better spa experience. Combined with a spacious footwell, integrated pillows and at least one Moto-Massage® DX jet in every model, you can truly relax in comfort.

READY, SET, SOAK

Be confident that your spa is hot and ready before you even step outside with the Ready Indicator Light in the Hot Spring® logo. This valuable feature also serves as a helpful diagnostic tool, letting you know when your spa needs attention.

EASY MAINTENANCE

A convenient floor drain means no bailing water when performing scheduled water changes.

LIMELIGHT COLLECTION

ADVANCED DESIGN AND FEATURES. A CUT ABOVE.

Featuring fresh clean lines, colourful mood lighting and sleek corner accents, Limelight® Collection spas stand out from the crowd. Best-in-class features and a legendary Hot Spring® experience make these spas a cut above the rest.

FRESHWATER® SALT SYSTEM READY

A revolution in worry-free water care that helps you spend more time enjoying your spa and less time maintaining it.

DUAL-ACTION FILTRATION

Unique two-filter design provides for more effective, constant filtration. Two filters provide more total effective area to keep water cleaner with less maintenance.

FIBERCOR® INSULATION AND ENERGY SMART

Exclusive insulation fills the cabinet completely to a density four times greater than the 8kg/m³ foam used in most spas. Combined with Energy Smart™ features, this keeps water hot and energy costs low.

COLOUR LCD CONTROL

Adjust lights, temperature, jets, and more with the easy to use system. It is conveniently positioned to be accessible from inside or outside the spa.

LIMELIGHT COLLECTION

SEE THINGS IN A WHOLE NEW LIGHT

The interior lighting system features multiple points of LED light placed to accent the contours of the spa shell. Two exterior LED lights integrate with the front corners of the spa, creating a uniquely elegant look that is unlike any other. Match the colour to your mood by selecting the hue and brightness of your choice, or cycle through all six vibrant colours. Lighting can be set to automatically turn on for four hours each evening.

ROOMY SEATING

Sculpted seats position your body to relieve stress and keep you in place while providing more interior space.

READY WHEN YOU ARE

You will always know when your spa is ready — even from a distance. A colour-coded Ready Indicator Light shows at a glance when your water is at the set temperature. The light will indicate if your spa needs maintenance, a filter change, or service.

PERSONALISED MASSAGE

Thoughtfully placed jets target specific muscle groups, from your neck to your shoulders, back, calves, wrists and feet. In a Limelight® Collection spa you have a variety of choices for a complete, full-body massage. Our Comfort Control™ system lets you adjust intensity, while our SmartJet™ system directs water flow to specific jet groups for the ultimate, personalised massage experience.

HOT SPOT COLLECTION

QUALITY, PERFORMANCE, AND VALUE.
MAXIMISE YOUR EVERY DAY.

Eye-catching design, unique massage, and trusted quality from the industry leader. Hot Spot® Collection spas deliver confidence that your investment will help you maximise every day, for years to come.

FROG IN-LINE SANITISING SYSTEM

The FROG® system is bromine-based and is formulated to work effectively in warm water. The system is integrated into the shell of the spa where it works continuously.

This system is approved for use in the following countries: Austria, Denmark, France, Germany, Ireland, Italy, Norway, Portugal, Sweden, UK.

FIBERCOR® INSULATION AND ENERGY SMART

Exclusive insulation fills the cabinet completely to a density four times greater than the 8kg/m³ foam used in most spas. Combined with Energy Smart™ features, this keeps water hot and energy costs low.

LCD CONTROL

Large buttons and an easy-to-read LCD display screen make controlling the temperature and features of your Hot Spot spa a breeze.

HOT SPOT COLLECTION

EYE-CATCHING DESIGN

Each spa creates a dynamic garden focal point with eye-catching finishes and distinctive design details. Subtly embossed cabinets give the look of natural materials yet provide the durability of advanced composites. Choose between three cabinet colours that can be combined with a variety of shell finishes to create a look that complements your home.

The large bartop offers plenty of space for cups, phones, or other items, while contoured seating and integrated pillows complement the overall aesthetic for an exciting look.

ACCENT LIGHTING

Multi-coloured LED lights inside and out* accentuate the design of your spa. You set the mood with a three-step dimmer to adjust light intensity and the option to choose one colour or a revolving display.

*Exterior lighting not available on SX and TX models.

FLOOR DRAIN

Convenient floor drains mean no bailing water when performing scheduled water changes.

COMPLETE MASSAGE EXPERIENCE

Value without compromise describes the Hot Spot® Collection. A variety of jet types, powered by our reliable WaveMaster® pump, work together with personalised control to deliver the massage experience that you expect from Hot Spring® spas.

EXCLUSIVE MOTO-MASSAGE JET

The SX and TX models come with the Hot Spring Moto-Massage® moving jet. This exclusive, revolutionary jet produces a warm stream of water that sweeps up and down the length of your back for an unparalleled hydromassage experience.

NECESSARIES

You will enjoy your spa more often with the added convenience provided by these Hot Spring® Necessaries™. Specifically designed for your Hot Spring spa, these additions help you get the most out of your experience.

COVER LIFTERS

Our patented cover lifters make opening and closing the spa cover simple, helping maintain your hot tub and extending the life of your cover.

COVERCRADLE

For the ultimate in ease, this robust system offers an ultra-smooth gliding mechanism and the power of dual pneumatic springs to support covers on even our largest spas.

COVERCRADLE II

The CoverCradle™ II uses a single pneumatic spring optimised for lighter covers and smaller spas.

UPRITE

Ideal for tight spaces and recessed spa installations, the Uprite™ system also provides an element of privacy by holding your folded cover in a vertical position.

LIFT'N GLIDE

The Lift'n Glide™ is easy to operate... Simply lift the cover, glide it back, and enjoy.

See your dealer for specific lifter clearance requirements.

CoverCradle Shown

HIGHLIFE® COLLECTION

Textured treads and contemporary design match the colour of the spa corners.

LIMELIGHT® COLLECTION

Made from the same material as the cabinets and available in colours to match each spa.

HOT SPOT® COLLECTION

Two-tone steps with treads in three different colour options to match spa cabinets.

POLYMER

Durable and lightweight, this step is offered in multiple colours and is eco-friendly – made with 100% recyclable material.

SPA SIDE ACCESSORIES

UMBRELLA

Shade your spa with the 360° rotatable spa side umbrella, featuring a 3 metres diameter canopy.

HANDRAIL

Our sturdy handrail is easy to reach when entering or exiting your spa. A battery-powered LED light adds illumination.

TOWEL TREE

Keep your towel off the ground and within reach.

COOLING SYSTEM

COOLZONE

With the CoolZone® System, you can use your hot tub for a warm soak on a chilly evening, and a cool, revitalising dip on a hot day. Or, for serious athletes, use it for cold-water therapy any time. Depending on ambient temperature, the system can also improve energy efficiency during normal operation by reducing the amount of time the No-Fault™ heater operates. This can translate to additional energy cost savings.

Available on select Highlife and Limelight Collection models.

ENTERTAINMENT

HIGH-QUALITY SOUND

On many models, an optional Bluetooth® music system can be added for streaming audio live or from your playlist. You can also add a subwoofer to select models for increased volume and richer bass tones.

PICTURE PERFECT

Add an all-weather, 56 cm HD wireless monitor to watch the game or your favourite shows. It offers excellent picture quality with 1080p screen resolution, tempered glass, and anti-reflective/anti-glare coating.

THE ABSOLUTE BEST HOT TUB OWNERSHIP EXPERIENCE™

Dedication and commitment to our customers has helped make Hot Spring® Spas the world's best-selling brand. This means you can count on an exceptional ownership experience for years to come.

*40+ years of
excellence*

*1.5 million
spas sold*

70 countries

THE BEST RETAILER PARTNERS

Our group of authorised Hot Spring dealers provide unparalleled customer care as you shop for, purchase, and enjoy your new hot tub. With sales and service centres located worldwide, we have the most extensive support network in the industry.

A BRAND YOU CAN TRUST

For more than 40 years, we have built our reputation on quality and have earned TradeCertified™ certification for providing a superior ownership experience in every year since the award's inception in 2005.

WatkinsWellness®
Feel good. Live well.

Hot Spring Spas is a brand of Watkins Wellness®, the leader in hot tub and aquatic fitness products. Watkins Wellness is part of MASCO Corporation, a Fortune 500 company whose family of quality home products includes:
